

WHITE NIGHTS Vibrant blue lids downplay redness and mask darkness. Try Nars Trio Eyeshadow in Cap Ferrat.

WILLIAM KESTIN, MD

MR. BRIGHT EYES

SPECIALTY: All eyes, all the time—board-certified ophthalmic microsurgeon William Kestin, MD, focuses on bone structure when transforming tired faces with masterfully placed injections.

SECRET WEAPON: After using Botox to raise brows, NYC-based Kestin injects filler underneath the arch. "A little bit of volume lifts things up, giving a more open-eyed, refreshed appearance."

QUICK FIX: Instant gratification for dark-circle sufferers, Restylane injections placed strategically between the muscle and the bone fill hollows.

THE KIT

From left: Kestin favors M.A.C. concealer for its wide shade range; ZADITOR eye drops "help relieve allergy symptoms such as eye redness and puffiness"; the "extremely emollient" SHISEIDO White Lucent Brightening Protective Cream provides essential SPF; Olay Regenerist Eye Lifting Serum is Kestin's "favorite OTC treatment."
